

## Company Coffers and Ace Agent

***Company Coffers*** and ***Ace Agent*** are real estate market evaluation programs. They track ***changes of companies and agents*** in Northwest Arkansas. (See screen shots below).

The programs run on Microsoft Excel version 2003 or earlier. There are ***4-quarterly*** issues a year.

Updates include:

- Volume
- Unit Sales
- Listings taken and sold
- Buyer controlled sales

Plus separate graphs and reports on:

- Gain and losses
- Name changes
- Mergers and Acquisitions
- New Companies
- No Company activity in past 60 days
- List of all agents and their sales volume

The programs use the ***entire database*** of Benton and Washington Counties. They evaluate the previous 8 quarters of company and agent data. (Last update 4/15/09).
